PROFILE

I am a UI/UX designer with coding skills, with strong customer service experience gained in the hospitality and food industries.

I am also a musician, sound artist and audio engineer with a deep artistic mindset.

I like to help others and solve problems and I feel satisfied when I achieve goals. I would love to work for a company or agency where I can grow while expressing my creativity.

SKILLS

My key skills are:

- Visual design
- Interaction design
- Branding
- Typography & Iconography
- Style guides
- Mobile app design
- User research and testing
- User personas
- User flows
- Wireframing & prototyping

Proficient with design tools such as:

- Sketch
- Adobe XD
- InVision
- Affinity Photo
- Photoshop
- Flinto
- Blender
- Atom/Visual Studio Code

* If you use different tools that works well in your workflow, I would be happy to learn it.
