PROFILE

I am a career changer with strong customer service experience gained in the hospitality and food industries, I like to help others. I am also a musician, sound artist and audio engineer. I have a deep artistic mindset and I like to solve problems, I feel satisfied when I achieve goals.

I recently become a UI/UX designer and I have basic coding skills. I would love to work for a company or agency where I can grow while expressing my creativity.

SKILLS

My key skills are:

- Visual design
- Interaction design
- Branding
- Typography & Iconography
- Style guides
- Mobile app design
- User research and testing
- User personas
- User flows
- Wireframing & prototyping

Proficient with design tools such as:

- Sketch
- Adobe XD
- InVision
- Affinity Photo
- Photoshop
- Flinto
- Blender
- Atom/Visual Studio Code

* If you use different tools that works well in your workflow, I would be happy to learn it.
